A psycho-spiritual seeker since 1990, Dr. Betz King is an ordained minister, Reiki master, Druidic bard and Priestess of the Western Mystery Tradition. Her theoretical orientation combines feminist theory, Hermetic Qabbalah, Humanistic, Jungian & Transpersonal psychologies and eclectic earth-based traditions.

Betz conducted her 2006 doctoral research on experiences of embodied spiritual empowerment, and she strongly believes that body & spirit must be united for authentic self-actualization to occur. In order for this union to take place, Dr. King believes it is helpful to become proficient in spiritual and ceremonial techniques.

The American Priestess Training Program was founded in 2015 to offer ceremonial skills and spiritual empowerment.

There is a blessing on all who serve.
